WILL SLOAN'S LINIMENT RELIEVE PAIN?

Try it and see—one application will prove more than a column of claims. James S. Ferguson, of Philadelphia, Pa., writes: "I have had wonderful relief since I used Sloan's Liniment on my knees. To think after all these years of pain one application gave me relief. Many thanks for what your remedy has done for me." Don't keep on suffering, apply Sloan's Liniment where your pain is and notice how quick you get relief. Penetrates without rubbing. Buy it at any drug store, 25c.

Elaborate arrangements are being made for the good roads convention to be held at Lexington, Sept. 5th to 7th, at which time and place the Southern Appalachian highway will spread the good roads highways throughout Kentucky and Dixie land. Gov. Stanley has appointed 1500 delegates in Kentucky, including all county judges and members of fiscal courts. Western Kentucky should send a good delegation to Lexington. Fulton county folks will be most interested in the Dixie Highway, which touches our county seat and puts us in touch with the other two big systems—the Boone and Michoud trails. It is in two branches both of which start from the northern part of the United States and meet at Chattanooga, where they again separate and meet in the northern part of the State of Georgia, continuing through to Miami, Fla., the Southernmost point. The combined length of the two divisions is 3,980 miles. It traverses eight States, touches four State capitals, and traverses 144 counties, passing through 110 county seats. How To Choose Your Drug Store

Select your drug store with the care that you select your doctor.

Choose that drug store that puts every transaction between itself and its customers on a service basis.

Trade at the drug store that pays more attention to making a customer than to making a sale.

Trade at the drug store where you can be sure that you are getting the most and the best for your money.

Trade at the drug store where you can "feel at home."

Where you can feel at liberty to make use of all the resources a real drug store peculiarly has for your help, convenience and accommodations.

It is this kind of a drug store that we take pride in running. You know a drug store is different from a grocery store, a hardware store or any other kind of a store.

The relations between a druggist and his customers are akin to those between a doctor and his patients.

The moment a druggist forgets this fact he ceases to be a real druggist.

We want you to make use of all the advantages our Service holds out to you.

We are always ready to refund your money without question or quibble on any purchase you may make here that is not perfectly satisfactory to you in every respect.

There are certain places, not a thousand miles from Hickman, where it is unnecessary to put up the sign, "No preachers wanted."

The business carried on hasn't enough respectability to command itself to any self-respecting citizen, much less a "man of prayer." Even the small of the police gives it away. The preacher's presence might endanger the financial income of the hotel, but the landlord and lawbreaker. The keeper of such a place never puts upon the outside of his door the familiar sign to "beware of the dog." RECIPROCITY AT HOME

MANY persons believe that the word "reciprocity" has merely a political significance.

But it means one of the greatest principles. All civilization is founded on it. Were it not for this great principle there would be no government, no society, no cities and towns. We would have merely anarchy.

IN PLAIN WORDS, "RECIPROCITY" MEANS THAT IF YOU EXPECT SOMEBODY TO DO SOMETHING FOR YOU, THEN YOU MUST DO SOMETHING IN RETURN.

Let us lay aside the political significance of the word and discuss this great principle as it applies to our own individual and community interests.

We have a prosperous community. We have a town which we are proud to call our own. We have various business establishments, good, well-kept stores, stocked with merchandise; we have various facilities for marketing the produce raised by the farmers who are a great and important part of our community.

Were it not for the farmers we would not have all of these facilities for doing business. It is possible that there would be no great necessity for a town of this size and importance.

On the other hand, were it not for the town the farmers would not be enabled to market their crops with such facility and their prosperity would be considerably curtailed.

Now here is where the reciprocity comes in and affects our local conditions and our prosperity.

THE STOREKEEPERS HELP THE FARMERS AND THE FARMERS HELP THE STOREKEEPERS.

Simplest thing in the world. Each does something for the other and both are benefited. The town is benefited and the agricultural district is benefited. We have good schools, churches, places of entertainment and our town is a general headquarters and meeting place for all interests. Every one of us has a certain place in the community and helps to make up a desirable place where we can have interchanges of ideas and commodities.

What if some great monopoly should swoop down and buy up everything the farmers raise, cattle and sheep and crops of all kinds, ship the whole lot direct to the city and thereby deprive our local merchants of the opportunity of handling the same; to utterly ignore the local interests?

Business would suffer. Many of our concerns would find it necessary to close up shop and go out of business. If this same policy were to be continued we would soon be without the necessity of having any town at all.

Of course, this is rather a far-fetched illustration, because there is no possibility of anything of the kind happening. BUT THERE IS DANGER FROM ANOTHER SOURCE.

What if the farmers should all send their money to the mail order houses instead of buying their goods from our local storekeepers?

Many of them do—too many of them.

IF THIS POLICY OF SENDING MONEY AWAY TO THE BIG CITIES INSTEAD OF BUYING FROM THE LOCAL MERCHANTS KEEPS UP AND CONTINUES, WE SHALL EXPERIENCE CONDITIONS WHICH WILL BE FAR FROM PROSPEROUS.

Reciprocity is what we need, right here at home. The storekeepers must deal fairly with the farmers and the farmers must deal fairly with the storekeepers, otherwise our system of business will be thrown out of its philosophical orbit.

Keep the money at home. Buy what you need from the local storekeepers. Don't help the big mail order houses to profit at the expense of our local merchants. Help the men who are helping to build up the community, helping to increase the value of your property by making a bigger and a better town where every facility for doing business is supplied for the benefit of the farmers—and the rest of us.

We must do for others if we expect others to do for us. We cannot evade the responsibilities of reciprocity, nor should we attempt to do so. Every dollar sent away to the big mail order houses restricts our opportunities for local advancement. EVERY DOLLAR SO DIVERTED FROM LOCAL TRADE MEANS SO MUCH TAKEN FROM OUR TAXES, WHICH GO TO SUPPORT THE COMMUNITY.

We can all do as well at home in the buying of goods as we can by sending our money to the mail order houses. We can do better, when we come to consider values and everything.

And reciprocity is the thing that builds up communities. THINK IT OVER THE NEXT TIME THERE'S SOMETHING TO BE BOUGHT.

DR. JOHN B. MURPHEY, FAMED SURGEON, DIES.

Dr. John B. Murphey, of Chicago, one of the world's most renowned surgeons, died Friday, at Mackinac Island, Mich., suddenly at a hotel while on a summer outing. An attack of heart disease was the immediate cause of death. Dr. Murphey had been in poor health for several months and some had ascribed his condition to the poisoned soup parakened the banquet given to Archbishop Mundelein at the University Club in Chicago last winter. His wife was with him at the time of death.

The famous surgeon, who recently was knighted by Pope Benedict for his researches in surgery, was only 58 years old. He first came into national fame through his specializing in intestinal disorders and inventing what was known as the Murphy button, making possible operations which theretofore had been deemed impossible. He was credited by many with being the first surgeon to perform operations for appendicitis, such cases previously having gone unoperated as quick consumption or other intestinal disorders.

UNUSUAL ACCIDENTS.

Mrs. Jones, of Cactus Creek, let canoe-pole slip last week and cut herself in the pantry. A mischievous lad, of Picketown, threw a stone and cut Mr. Pike in the alley last Thursday. Joe Doe climbed on the roof of his house last week looking for a leak and fell, striking himself on the back porch. While Harold Green was escorting Miss Violet Wise from the church social last Saturday night a savage dog attacked them and bit Mr. Green on the public square. Isham Timmer, of Running Creek, was playing with a cat Friday when it scratched him on the forehead. Mr. Frank while harnessing a broncho last Saturday was kicked just south of the corn crib.

New discoveries are constantly being made that benefit humanity, more or less according to the necessity or demand for an improvement over old methods.

On account of the dangerous, as well as unpleasant, after-effects of Calomel, men of science have been patiently searching for a substitute for it.

Calomel acts too violently on your liver, causes you to lose time from your work, and is liable at any time to salivate you. Science has at last discovered a substitute for Calomel which is called Lemolac.

You will find Lemolac a real liver medicine that possesses the virtues of Calomel without its unpleasant and often dangerous after-effects.

Lemolac is pleasant to take, and it does not salivate, is certain to fill a long felt want. Try a bottle at our risk.—Helm & Ellison Drug Store.

BYRD CHOATE WAIVES EXAMINING TRIAL.

Failure to get to hear the promised sensational evidence expected in connection with the examining trial of Byrd Choate, at Mayfield, yesterday, brought keen disappointment to hundreds, when it was announced that Mr. Choate had waived preliminary hearing, and would let the matter rest until the next term of circuit court. This is the case charging Choate with mutilating Henry Campbell a few weeks ago. Choate does not deny his guilt, but his grounds are that he did it after he found out that Campbell had ruined his home. Since the unfortunate affair, he has been making his home with his father at Hickman.

UNDERTAKING

IN MEMORY OF BESSIE BACON.

Bessie Bacon was born July 8, 1884, married to L. H. Bacon, Oct. 6, 1907, departed this life, July 11, 1916, age 32 years and 23 days. On the evening of July 31 at 9:30 the sad news were flashed over the phones that this good woman had passed into the great beyond. She came from one of the older pioneer families of this county, being the youngest daughter of the late Hardin Madden. In early childhood she united with the Christian church at Mt. Hermon, at State Line, and lived a pure sweet christian life until the end.

Of a beautiful character and cheerful and charming personality, she was loved and adored by all. She loved the truth and had the courage to speak her convictions. She was a staunch advocate of and with her husband, a regular contributor to the various enterprises of the church. She was teacher of the little beginners in Sunday School who will miss her kind words every Sunday afternoon. Our heart goes out in sympathy to the young husband who has been left alone to fight this world's battles, but remember, earth hath no sorrow that heaven cannot heal.

Beside her husband, she leaves an aged mother, three brothers and two sisters to mourn her death. On the afternoon of August 1st, the beautiful funeral services were held at Mt. Hermon by the Rev. J. Randall Farris, of Union City, after which the remains were conveyed to Poplar Grove church where a large concourse of sorrowing friends and relatives had met to pay the last sad tribute of respect to a good woman gone. She was laid to rest under a bank of beautiful flowers to await the resurrection morn.

The rook party held at the Moose hall Tuesday afternoon and evening by the Ladies Rook Club for benefit of the associated charities, was a pleasant affair and heartily enjoyed by a hundred or more guests. There were 18 tables at the evening session, and a jolly crowd participating in the games. Music and dainty refreshments were also enjoyed. The minutes fail to show the time of adjournment, but we know Nip Walker, R. M. Isler, Wood Tipton, R. B. Johnson and some other "night owls" were there as late as 11:30, and were just "getting under way." As a result of their labors, the ladies realized \$39.60.

Dr. and Mrs. Vainer and Mrs. Ed Baum, of Louisville, Mrs. Addie Biggerstaff and daughter, Rima, and Mrs. Mary Bullock, of Fulton, are visiting Mrs. Bailey Huddleston.

Phone your grocery order to Bottersworth.

MAIN BUSINESS STREETS WILL BE OILED.

At last it is a settled fact that Hickman's main business streets are to be oiled. Sufficient money for this purpose has been subscribed by our public-spirited business men, and oil will be ordered at once—about 6000 gallons.

It is planned to oil Clinton street from the county jail to the Star Grocery corner, thence south to Stahl's livery barn. Jackson street will be treated from one end to the other and each of the streets between Jackson and Clinton will be oiled. The streets, part of which are already finished, will be in excellent shape to receive the oil, and the dust nuisance will be at an end for some months to come. We are glad the third attempt at this proposition has been successful.

The members of the Rook Club request the Courier to express their sincere appreciation of the liberal patronage given them Tuesday afternoon and evening at the charity rook party held at the Moose club rooms; and especially the Moose lodge, which so kindly tendered the free use of their hall and otherwise assisted the ladies in their task.

Don't forget to pay your Building & Loan dues today.

Mr. and Mrs. B. Parham visited at State Line Sunday.

Cotton is beginning to open in this section.

**WARNING TO PUBLIC.
KEEP STREETS CLEAR.**

Hickman has put into commission a large motor fire truck, and many people are apt to overlook the necessity of clearing the streets when they hear the machine coming. It is obvious that a fire engine must go at a high rate of speed, and a large, bulky machine cannot make a quick stop to avoid accidents, nor should it be forced to do so.

All persons within the corporate limits are therefore warned when they hear the bell, siren horn or "wild cat whistle," to immediately drive to one side of the street and remain there a few minutes, unless you know the engine will not pass that way. As a further precaution, it is also urged that teams be not left standing unattended near cars, or vehicles left in such a position as to partially or wholly obstruct the streets; the fire alarm might be turned in at any moment.

Keep children out of the street; teach them to go to the sidewalk when they hear the fire alarm.

Observe these rules and help me to avoid accidents.

B. W. POSEY, Fire Chief.

FORM PARTNERSHIP.

Drs. Chas. W. Curlin and Jas. W. McPheeters have formed a partnership for the practice of medicine and surgery in Hickman, and are now fitting up a handsome suite of rooms in the new Dodds building for office purposes. Dr. Curlin has recently returned from Memphis, after being away from Hickman for several months, and has a splendid practice here. Dr. McPheeters located here a short time ago, and is a fine young physician of pleasant personality. The new firm will be known as Curlin & McPheeters.

LEASED EMPRESS THEATRE.

W. C. Morris, of Union City, who has been in the movie game in that city for the past nine years and is now operating the Ardome there, has leased the Empress Theatre in Hickman from J. T. Dillon, and will open the show next Saturday. The deal was closed Tuesday.

The Social Embroidery club had an enjoyable meeting with Mrs. John Adams Monday afternoon. Punch was dispensed to the guests upon their arrival by Mrs. W. N. Phebus. After some time spent in crocheting music on the Victrola was enjoyed. Aside from the members several guests were present. At the close of the afternoon Mrs. Adams served her guests cream and cake. The club meets on August 21st with Mrs. W. H. Caldwell.

Circuit Clerk W. L. Hampton attended the meeting of the State Association of Circuit Clerks at Dawson Springs last week. J. W. Morris, ex-clerk, was also in attendance.

J. A. Roper & Bro. will sell country eggs at 20c per doz.

**HICKMAN BEATS
MAKESHIFT TEAM.**

The Walkovers defeated the Samburg team here Sunday in a light hitting game.

Errors were plentiful on both sides.

The pitching of Sexton was one of the features, only allowing 2 hits and striking out 8 men.

A running catch of Osburn in center was also a feature. The hometown was quick to take advantage of the opponents' weakness.

Samburg had only one man from that place—Shaw—the balance of the players being from Union City.

The strong Martin team will be here next Sunday and the Walkovers will try and redeem themselves.

RESOLUTIONS OF RESPECT.

Resolutions respecting Mrs. Bessie Bacon, deceased, as adopted by the Ladies Aid Society of Mt. Hermon Christian church of which the deceased was a member:

Whereas our Heavenly Father, the Supreme Ruler of the universe through His infinite wisdom has taken from us a consistent Christian, a loyal member of the church and the society, and from the husband a devoted companion.

First—That we bow in humble submission to the will of an All Wise God who doeth all things well.

Second—That we feel most keenly the irreparable loss we have sustained in the passing away of this true woman of God.

Third—That we will ever strive

**PROSPECTS BRIGHTER AS
REGARD R. R. STRIKE.**

Prospects for settling the threatened railroad strike are somewhat better today, but nothing definite has been accomplished. Pres. Wilson has tendered his services in an effort to bring the two factions together. He leans towards the employees, inasmuch as he asks the railroad managers to grant an eight hour day with time and half for overtime, which is contended for by the employees. Thus far the latter have the best of the argument, but it seems the managers are not inclined to look favorably upon the proposition. The matter will doubtless come to a head today one way or the other. Should the strike materialize, about 2,000,000 men will walk out leaving 225 railroads tied up. The effect on business in general would be far reaching, unless Congress sees fit to take some drastic action.

WILL REPAIR LEVEE.

C. T. Bondurant, T. A. Ledford and H. C. Helm went to Memphis yesterday to confer with Major Markham regarding some work on the Redfoot levee. Our understanding is that land owners behind the levee have been asked to put up the \$25,000 subscribed by them and that the government would furnish the necessary balance—about \$40,000. The local levee board will be given 30 days in which to collect up this money. They are also to furnish a right-of-way for the building of the levee at mile 4, which is the principal work involved.

The Enterprise - Courier, at Charleston, Mo., one of our valued exchanges, is the first paper in this section to really suffer from the much talked-of paper famine. Last week that paper was forced to cut down the number of pages and get out a limited edition, sending papers to their subscribers adjacent to Charleston only; leaving off 500 regular readers. Their only hope for issuing a paper today, is the promise of borrowing a small quantity of print paper from the East Prairie Eagle—and Lord knows—he is a generous, big-hearted publisher who will divide his scant surplus stock with a fellow-publisher under present condition. But the break is coming all down the line before many weeks. Paper has advanced \$7 a ton in less than thirty days, and none of the mills or paper houses will accept orders even at present prices. They will neither guarantee prices or delivery, and are unable to say when they will be in a position to do so. This paper has patiently stood the doubling and tripling of prices with subscribers, hoping there would finally be a let-up to the upward out any extra charges to its subscribers, the longer we wait, the worse it gets. We've done our best to avoid raising subscription rates, but, unless there is a check on the rapid advance between now and Sept. 1, the Courier will be forced to get more on subscription. For many months, it has been a proposition of throwing good money at bad, and our "capital and surplus" is not large enough to keep this up indefinitely. Many weekly papers have already advanced to \$1.50 a year, while some have been forced to suspend temporarily and have quit doing anything but job work. Frankly, we believe the worst is yet to come.

D. P. Leibovitz left Saturday for Lewisport, Ky., to spend a couple of weeks with home folks. He will also spend a few days at Louisville and Paducah before returning home.

Sam Taylor, wife and children left Friday for their home in Rome, Ga., after an extended visit to Mrs. Taylor's father, Capt. C. B. Hackett, and family.

Miss Blanche Binford returned Sunday from a two weeks visit in Brownsville, Tenn.

J. R. Newport, of Chicago is in the city for a few days on business.

IN REACH—OR OUT?

Suppose a fire broke out today in the house, office or store adjoining you how would you stand in regard to a fire insurance policy? Have you got one at all? Is it in a sound and reliable company? Now is the best time to think about it and to take out a policy if you haven't one. You can't get it afterwards you know. See us about a policy at once. The cost is small—the benefits great.

**MAKE QUICK TIME
IN EXPERIMENTAL TEST.**

Fire Chief Posey made a test run with a full crew on the fire truck Tuesday afternoon, and the result was more than gratifying. It required only 1 1/2 minutes to run from Ellison feed store to Grissom's grocery, about twelve blocks. Just two minutes from the time they left the station they had water going on two 300 foot lines of hose; in another 15 seconds the pump was going, with 180 pounds pressure. As this was really the first try-out with engine and crew, the time made exceeded anyone's expectations and is a fine compliment to Chief Posey and his company.

INCORPORATED

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

HICKMAN LAUNDRY

Courier's Home Circle

The man who never praises his wife deserves to have a poor one. And the man who praises a good wife more than she deserves has not been born yet.

When crepe on the door tells of a mother gone, only those who have witnessed a mother's grave with their tears can fully understand and read aright the black thread in the bow.

Sometimes the husky word has been spoken, the sharp, snappish word been carelessly uttered in the home circle. The true wife's heart so often bleeds at the bitter, thoughtless, but cutting words of a husband. When she is gone to heaven he will remember it.

There are many happy homes, thank God, in every community, and when they exist there goes out from them a blessed influence which can hardly be over-estimated. "A real home with a mother in it," whose hospitable doors are ever open to those not so blessed, is a wonderful power for good.

Never think you can afford to be dowdy at home. Cleanliness, hair well dressed, and a smile will make every look like silk in the eyes of a father or brother.

Why is it that we so easily forget that the little things in life are what make it easy or hard? A few pleasant words, a warm hand clasp, a cordial letter, are simple things, but they are mighty in their influence on the lives of those about us, adding a ray of hope to many disconsolate hearts, giving a bit of courage to disappointed, weary ones, and helping to make our own lives sweeter at the same time.

It is one of the paradoxes of life that the more a woman keeps her husband in hot water the colder he grows toward her.

When hearts are broken and friends fail, this active, stirring, light above town for 31 consecutive years. His good record together with his version of the cause of the assault, prompted City Attorney Powell to ask that the old man be dismissed, which was done.

CALOMEL DYNAMITES A SLUGGISH LIVER.

Crashes Into Sour Bile, Making You Sick And You Lose A Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it. Ad.

POLICE COURT NOTES.

Since Aug. 1st, the following cases have been tried before Judge W. B. Amborg in Hickman police court:

The following have been fined \$5 and costs on charges of breach of the peace: Hugh Slater, Willie D. Armstrong and Doc Wallace.

For violating the local option law, Linn Claflin was fined \$50 and costs. Linn was caught with the "goods on" by a "plain clothes man." Sarah Mitcheson was given a fine of \$20 and a ten days jail sentence for having in her possession for purpose of sale 11 quarts of beer and considerable whiskey.

"Linch" John Brown, an old antebellum negro, age 82, was arrested assaulting Hugh Slater, who smote the young negro with his walking stick. The old negro plead his own case, and, among other things, said he was 82 years old and was never arrested before; also, that he had been looking after a government light above town for 31 consecutive years. His good record together with his version of the cause of the assault, prompted City Attorney Powell to ask that the old man be dismissed, which was done.

When you yawn a good deal in the day time, feel dull, achy, and want to stretch frequently it is an unmistakable symptom of malaria, and unless you do something at once you are booked for a spell of chills. HERBINE is a mild medicine that will prevent or cure the disease. It drives out the impurities on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 50c. Sold by Hickman Drug Co.

Colds

should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

TWO KILLED WHEN TRAIN STRIKES AUTOMOBILE.

An automobile party enroute from Paducah to Fulton, were run down by an I. C. train known as the "Whiskey Dick," late last Wednesday evening and two of the party were killed. The dead are Z. C. Graham, of Grahamville, Ky., and Queenie McClure, of Paducah. The two others, occupants of the car, James Fox, of Obion, Tenn., and Ruth Martin, of Paducah, were injured.

The accident occurred a quarter of a mile south of Mayfield. The train was running about 35 miles an hour and the auto was almost squarely on the track when the collision occurred. The machine—a Ford—was cut in two. The direct cause of the tragedy is probably explained when it is stated that beer and whiskey bottles and cigarettes were scattered far and wide from the auto when the engine hit it.

GREAT MASS OF PROOF.

Reports of 40,000 Cases of Kidney Trouble, Some of Them Hickman Cases.

Each of some 6,000 newspapers of the United States is publishing people in its particular neighborhood, who have used and recommend Don's Kidney Pills for kidney trouble, weak kidneys, bladder troubles and urinary disorders. This mass of proof includes over 40,000 recommendations. Hickman is no exception. Here is one of the Hickman cases:

W. A. Smith, Hickman, says: "I had pains across the small of my back and in my sides. My kidneys and bladder were weak, obliging me to get up at night. Two boxes of Don's Kidney Pills cured me and I seldom have need of a kidney medicine now."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Don's Kidney Pills—the same that cured Mr. Smith. Foster-Milburn Co., Props., Buffalo, N. Y. Advt.

At the close of the afternoon cake and cream were served. Those present were: Misses Anna Dodds, Helen Rice, Lucile Hendrix, Lillie Dillon, Bernice Harper, Lois Choate, Emphise Peck, Eva Adkisson, Mary Julia Tipton, Ruth Barrett. Out of town guests: Misses Sue Brown Moss, of Union City, Mary Ada Caldwell, of Tiptonville, and Annie Prather, of Woodland Mills.

In order to stimulate the enlistment in the Kentucky national guards, Gov. Stanley has addressed a letter to each sheriff in the State, asking for a list of names of those who are of proper age and possesses the necessary requirement of a soldier. After this is secured an effort will be made to induce young men to enlist in the army, in order to increase the strength of the various regiments in the State.

County School Notes

By Miss Virginia Luten
County Sept.

On Monday, August 21st, there will be an all day picnic at the new school at Cayce. The men in the community will grade the school yard and the ladies will serve dinner. In the afternoon a School Improvement League will be organized. Let all who can possible do so come and enjoy the day and lend a helping hand so that every thing may be ready for the opening of the new school. This is a county high school and we should take great pride in showing the boys and girls our interest and determination to make it a complete success. Several citizens outside of the district have offered their assistance which is indeed commendable. Let us pull together for the success of this public enterprise which will mean so much to the entire community. We expect to have a large crowd Monday and an enjoyable occasion so don't fail to have a share in it.

The majority of our rural schools are now in session. Our trustees and school boards have made a great effort to employ well trained teachers. All of them are holding first class certificates or better. A large number of them will draw salaries from \$50 to \$80 per month. It is due the children in the rural school that they have the advantage of well trained teachers and we are glad nearly all of them have had good training in high school, normal and university. There is not a teacher in the county who is merely an eighth grade graduate.

Blue Pond is having an unusually good attendance, the best of any school in Division Number Four.

Graves school will give a pie supper Friday night.

The club women of Fulton have raised a nice sum for the Kentucky Literacy Commission and would be glad to have assistance from the Hickman clubs. The State Federation of Women's Clubs have agreed to raise \$10,000 for this worthy cause. Books, tablets, etc. will be furnished free to any teacher who will organize a moonlight school in any of the counties.

"Preparedness"

ARE YOU PREPARED?

In looking back we find that twenty-six and one-half years ago we began building homes in Hickman.

The Association, in its economical way, has builded more homes in Fulton County than any other association, of like character, in the United States.

It is to your interest to investigate the inducements offered. The Association does not profit by your investment—you are the gainer. Every shareholder is a stockholder; in other words, it is a mutual company comprised of the citizens of Fulton County.

Look around you and see how many are enjoying the comforts of home derived from the judicious investment made in the Association.

Ask yourself whether it is more profitable, satisfactory and sensible to take stock and build a home or continue to pay rent from year to year, and in the end have nothing to show for your money.

THE BOOKS ARE NOW OPEN

Details of the desperate condition of deported Armenians in the deserts of northern Arabia and lower Euphrates valley are given in a cable dispatch made public by the American committee for Armenian and Syrian relief. TALK TO NON-ADVERTISERS.

The "Woman's Wear," a trade journal of national reputation, carries a report of the happenings of the National Advertisers Convention, and among those in attendance was Herman Rosenthal, advertising manager of Sears, Roebuck & Co.

Mr. Rosenthal, in addressing the convention, in part, said:

"We have a bureau whose duty it is to read, each week, the country newspapers from all over the country. There is not a paper of any consequence in our trade territory that our bureau does not get. This bureau looks over these papers, and when we find a town where the merchants are not advertising in the local papers, we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants all the time use their local paper."

This argument alone would seem sufficient to convince the most skeptical. There is a good per cent of the retail stores of Hickman that never carry an advertisement of any kind, in the local newspaper, nor advertise the fact of their existence in any form; but should they be solicited, they will be the first ones to decry the fact of the "buying out of town" terror.

Just such merchants are the kinds that Mr. Rosenthal is looking for, and they are just the kind that have their customers flooded with mail order catalogues, and who are eventually closed up by the "red rock" route for lack of patronage, all of which could have been eliminated had they fought their mail order competitors with timely and convincing talks through the advertising columns of the Courier.

J. W. Ward has returned from a visit to his logging camp below Memphis.

Miss Clarice Young visited Mrs. Fred Case last week.

The county and city authorities in a united effort, have teams and men at the corporation bridge in West Hickman deeping the drain ditch at that point, and when completed the drain water that has been flooding West Hickman will be diverted to another direction, the ditch being dug as far as C. M. & G. railroad. The street just south of the West Hickman school is also being filled, the drain water having run across this street until it was in a bad shape. This ditch formerly took care of the sewerage and rain water, but through neglect had been allowed to fill up; thus throwing the water across West Hickman. This will not only add much to the appearance of that part of the city but will be beneficial from a health standpoint.

Swayne Walker and Jack Barnes left Saturday by boat for Whitehall, Ark., to look after some timber business. They carried with them ten head of mules for logging.

ELIMINATE STAMP TAX.

A corporation stock license tax to raise approximately \$20,000,000, elimination of the objectionable stamp taxes which had once been accepted and approved, with an amendment, of the proposed net profit tax on munition manufacturers were determined upon by Democratic Senate caucus Monday after a stormy five-hour debate on the revenue bill.

Senator Simmons suggested a license tax of 50 cents on each \$1000 of capital stock, undivided profits and surplus of all corporations, \$100,000 of the stock of each corporation to be exempted. The tax would apply to all corporations, including banks, capital and surplus in excess of \$100,000.

HOTTEST PLACE ON EARTH.

We have heard of dead people, dead beasts, dead trees and dead flowers, but is there such a thing as a dead sea, and why do they call it dead? There is, and they call it dead because it receives all and gives nothing. This body of water—the most remarkable in the world—is at the southern end of the Jordan Valley in Palestine. It is 47 miles long and ten miles wide, 1,202 feet below sea level and is in one of the hottest regions on earth. It receives 5,000,000 tons of water daily into its bosom from the Jordan river but gives none out to refresh and nourish the valley below, which has become an arid desert on account of the close fistedness of the sea. Its water is five times as salty as the ocean, is bitter to the taste, oily to the touch and leaves a yellow stain. No fish live in the water, no flowers bloom or fruits grow on its shores, no birds sing in its neighborhood. Its barkless driftwood and shores are infested with salt. Its setting is a scene of desolation and gloom, looking as if the curse of God rested on the whole region.

STILL GREATER LOSS IN COTTON CONDITIONS.

The cotton crop suffered further heavy deterioration during the last ten days. Principal contributing causes were continued rains and heavy boll weevil ravages east of the river and dry weather in the west.

The greatest damage during the period covered by this report was caused by activity of the boll weevil. In all of Mississippi and Alabama but the northern counties, and in most of Louisiana, damage from this pest is reported as decidedly the greatest ever known. They are active in a lesser degree in Texas and Southern Georgia. Fields are lined with the pest, and big stalks of cotton in many instances been denuded of almost all their fruit. Some correspondents report areas and acres of cotton with stalks carrying an average of two bolls each. Only a portion of the bottom crop is counted upon to mature in the best of weevil infested areas. In many places the plant has stopped blooming, and where squares are formed they are punctured by the weevil.

Heavy rains, besides rendering conditions more favorable for the spread of the weevil, have stopped cultivation and allowed grass to take possession of the fields. The plant, outside the boll weevil districts, is large and supple and is fruiting poorly, with a disposition to shed much of the fruit if does put on. Most correspondents believe that conditions in the east outside Tennessee and the northern portion of other States, are so bad that only a very partial recovery is possible under most auspicious weather conditions for the remainder of the season.

LOUISIANA: Too much rain and ravages of boll weevil have greatly impaired the cotton crop prospect. This is quite a general complaint, except the northern part of the State, where the outlook is reported still good. Some cotton opening and being picked.

GEORGIA: Heavy and continued rains have greatly damaged the crop. Fields are filled with grass, in many instances as high or higher than the cotton. Plant is generally quite large, but fruited very poorly, with a disposition to shed much of the fruit already put on. Most correspondents say the outlook is for a shorter crop than last year, despite an increased acreage.

NORTH CAROLINA: There are a few reports of good conditions, where the crop is thriving and fruiting well, but as a rule heavy and continued rains have greatly damaged the plant, and the outlook as a whole is poor. Fields are grassy, and the plant though large, is poorly fruited.

TENNESSEE: There are some complaints, which make conditions spotted, but on an average the crop has done well during the period covered by the report, and the outlook is favorable. Cultivation is about finished, with ground in good condition and fields generally clean. Plant healthy and fruiting well in most instances, although there are some reports of poor fruitage.

OKLAHOMA: Hot, dry weather has checked the progress of the crop and result in some loss for the last fortnight, although many correspondents report the plant holding up well. Further extension of the drought means rather heavy deterioration, while good general rains within a few days would probably result in a fine yield for the State.

MISSISSIPPI: Heavy rains and boll weevil have played havoc with Mississippi's prospects for a cotton crop. Aside from the upper delta, rains and boll weevil have reduced the outlook until correspondents quite generally estimate prospects at from 25 to 50 per cent of a normal crop. Fields are grassy for the most part, the plant is large, poorly fruited, and such fruit as is being put on now is being destroyed by weevil. Most correspondents say this pest is the worst ever known in their respective localities.

SOUTH CAROLINA: A superabundance of moisture has prevented progress on the part of the crop. Cultivation has been checked or entirely stopped and grass and weeds have sprung up in a luxuriance. Plant has grown well and presents a good appearance, but is very poorly fruited, with a disposition to shed much of the fruit already put on.

ALABAMA: There are a few moderately favorable reports from the northern part of the State, but aside from these, conditions may be described as ruinous. The rains of June and July prevented

thorough cultivation, with the result that grass and weeds predominate in most fields. The heavy rains of July completely destroyed many lowland crops and greatly damaged that on the highlands. As a result of the rains, plant is fruiting poorly, and on the north, boll weevil is taking about all the fruit that is being put on now. Many correspondents estimate condition as low as 25 per cent of normal.

ARKANSAS: Excellent outlook of a month ago seems to have been maintained, despite some deterioration in various localities on account of drought. The scattered nature of local showers has resulted in spotted conditions in many counties, but, on the whole, improvement in one section seems to have more than offset damage in others. Plant is generally strong and healthy, in clean fields and fruiting well. Many reports of boll weevil, with considerable damage in certain sections.

TENNESSEE: The scattered nature of recent local rains makes conditions spotted, and it is probably correct to say that the crop has about held its own during the past period covered by this report. Where dry weather has not been relieved the outlook is discouraging, but where the necessary rains have fallen the outlook ranges from good to excellent, with some localities having prospects of a bumper crop. Complaints consist of shedding, a plant blooming at the top in dry areas and damage from boll weevil in various localities ranging from a negligible amount to very heavy, but on the crop as a whole, not large. Barring possible boll weevil ravages, good general rains could still bring about a very big crop in the big State. Picking is going forward in southern part of the State.

A DOCTOR'S REMEDY FOR COUGHS.

A trial will prove the value of this splendid cough medicine. Dr. Bell's Pine-Tar-Honey, soothes the irritation, stops your cough, kills the cold germs and does you a world of good. A 25c bottle will more than convince you—it will stop your cough. At druggists.

C. T. Bondurant is evidently well pleased with his new tractor—the first to be put to an actual practical test in Fulton County—which is being operated on his Ash Log farm for breaking wheat ground. Although the ground was unusually hard last Friday, at which time a Courier man visited this place, the tractor moved right along at a good gait with four large disc plows, which under prevailing conditions would doubtless have been a good load for twelve mules. Two men are required to operate the outfit successfully, but the cost of labor and fuel are nominal compared with the work done. One particular feature of plowing with the "iron mule" is the depth of the breaking. These plows are going down 8 or 10 inches, a thing rarely done though important with mules and mole-board plows. As one would naturally surmise, the ground is "laid off" in circular form, which permits the tractor to run continuously without usual stops for corners. In a square field, this this leaves four small triangular corners to be broken with a single plow and team, but these corners can be made very small, and their breaking is a matter of insignificance compared with fields of any consequence. In short, the tractor seems to be a success and will play an important part in future farming operations of this section, which it has already done in many other places.
